re: Bio: PDK Card

Dear Sue -

I wanted to get this into the pack so will just give the cc to Gerry.

As you will see by the attached, PDK claims ignorance of a contract with OVG. Now that is a bug! I'm also going to try and find Larry Brennan again to see what this output could mean.

On other matters, yes, I am on other MD's now but (as you can tell) I am not deserting this area totally. I keep one foot in it. I find it ironic that I was no sooner pulled back into PR than I popped back out onto Spec Pjt lines and my working space is across the hall from Gerry. I now have so many desks I'm losing track of where I leave my coffee cups!
